

**ADVANCED APPRENTICESHIP TRAINING
IN
ENGINEERING and ELECTRONICS**

SHAPING THE FUTURE

There is nothing like 'growing your own' employees to meet the future demands of your company. Derwent Training Association have been co-ordinating apprentice programmes since the mid 1980's and have approved quality standards. We have for a long time been the preferred apprentice training provider for many local companies and have been at the forefront of the Advanced Apprenticeship initiative. We work closely with our client companies and are very proud of our achievements and success.

We can help you to recruit the right people

Derwent Training Association is the main link between young people and the prospective employer. We will carry out the assessment test and assist companies in the selection of young people at no cost to you.

We can deliver nationally accredited training programmes to suit your needs

Your company will receive support from our experienced trainers and assessors throughout the training programme.

As one of our sponsor companies you will benefit from membership of our association and the many courses that we offer.

We are an approved centre for the delivery and assessment of City & Guilds, EAL and accredited training.
